Node.js

ABOUT ME

"Whatever you do, work at it with all your heart, as working for the Lord, not for human masters..."
-Colossians 3:23 NIV

It is for this reason I will work to accomplish the tasks given to me in such a way as to honor the Lord as a hard worker. Creativity, hard work, and working well in a team are just a few of my strong suits. When I come up with an idea or am presented with a task, I put my mind to the test to figure it out or learn how to make it happen. I have university-level training in Full-Stack Web Development and am quick to learn new skills. I am dependable, helpful, and approachable.

OBJECTIVE

To work as a servant at the Lord's table. To honor God by putting my best foot forward in the workplace. To work to bring success to all of those around me.
